CAREER OBJECTIVE

Detail-oriented Computer Engineering student specializing in Cyber Security, Full-Stack Development, and Python automation. Passionate about AI/ML, and Computer Vision, with strong problem-solving skills and experience in backend systems, data handling, and project development.

EDUCATION

Bachelor of Engineering (B.E.) — Cyber Security I SRM Valliammai Engineering College, Chennai

Expected Graduation: 2027

TECHNICAL SKILLS

Programming:	Python, C, Java, JavaScript, SQL	Web Development:	HTML, CSS, Node.js, Express.js, SQL
Cybersecurity:	Kali Linux, BurpSuite, Forensics Tools	Data Handling:	SQL, PDF/Excel automation
Tools:	Git, VS Code, VMware, Linux (Kali)	Soft Skills:	Problem-solving, Research-oriented

PROFESSIONAL EXPERIENCE

Full-Stack Developer

Jan 2025 –Present

Hustlefy (The Future of Flexible Work)

- Building community-driven gig platform connecting task seekers with workers for quick earning opportunities
- Developed backend workflows for Instant Jobs, Scheduled Jobs, and Custom Jobs with efficient data handling
- Implemented job posting, browsing, and wallet prototype with secure payment flow
- Enhanced trust and safety with verified profiles, ratings system, and wallet-based payments

Tech Stack: Node.js, Express.js, SQLite, JavaScript, GitHub

PROJECTS

Anonymous Messaging Platform

- Built temporary ID-based anonymous messaging platform with Node.js, Express.js, SQLite, and HTML/CSS/JS
- Designed backend server to generate random 6-digit IDs with session-based data deletion for enhanced privacy
- Implemented server-side validation for ID existence before message delivery

Cybersecurity Labs & Assignments

- Conducted penetration testing on lab-hosted vulnerable sites using BurpSuite for vulnerability assessment
 - Performed brute-force login simulations with payload automation and hands-on VMware + Kali Linux experience
-
